

Jiaqing Xu

Greater Boston, MA | kevinxu2777@gmail.com | github.com/kevinxu2777

Computer Science graduate and junior system administrator with hands-on experience supporting enterprise users, maintaining operational systems, and building Python automation tools with local dashboards, SQLite persistence, email alerting, and API integrations.

SKILLS

Programming: Python, JavaScript, Java, SQL, Go, HTML, CSS

Systems and IT: Windows PowerShell, SecureCRT, VMware, Nutanix, network switch configuration, ticket triage

Automation and Data: SQLite, REST APIs, HTML dashboards, SMTP email alerts, macOS LaunchAgents, spreadsheets

Languages: English (fluent), Chinese (native)

EXPERIENCE

HiQ Computers - Onsite at Pfizer, Andover, MA

Sep 2025 - Present

Junior System Administrator

- Resolve MCS support tickets for Pfizer end users, balancing daily troubleshooting with operational follow-through.
- Maintain and support Non-GMP systems and workflows including ETOP, OMEGA, Unanet, and File Transfer.
- Troubleshoot CLAN laptops, Nutanix-related requests, user-reported issues, and basic network/switch tasks.
- Execute and validate SPEC-related activities according to documented procedures and support expectations.
- Build and maintain operational spreadsheets for issue tracking, reporting, asset visibility, and support coordination.

SELECTED PROJECTS

Market Watch Tool

Python, SQLite, HTML, SMTP

- Built a local market-monitoring system that tracks global news, macro events, equities, commodities, rates, and volatility signals.
- Implemented event scoring, deduplication, SQLite history, email alert batching, and a live HTML dashboard with filtering and feedback controls.

Award Travel Copilot

Python, CLI, SQLite, APIs

- Built a travel-award monitoring workflow that uses seats.aero data to detect new award availability and create actionable email alerts.
- Designed local profile logic for points balances, transfer-partner recommendations, credit tracking, and dashboard-based trip review.

EDUCATION

Boston University, Boston, MA

May 2025

Bachelor of Arts in Computer Science
